

LUMIN Schools

Developing Christian Learners and Leaders in the Urban Community

August 30, 2021

Dear Wisconsin Department of Public Instruction,

We have identified an error in the economically disadvantaged data submitted by St. Peter - Immanuel Lutheran School for the June 3rd, 2021 Spring demographic student snapshot. St. Peter - Immanuel Lutheran School is one of the schools within the LUMIN Schools network.

We found that students who fell into the economically disadvantaged category were inaccurate and a significantly smaller percentage than the true count of students qualifying as economically disadvantaged was reported. This was due to a code input error in our Student Information System, FastDirect.

Please accept this letter as notification of the data error. We are working diligently to correct the data in WiseData in order to provide an accurate economic disadvantage report.

Thank you,

Jenna Johnson
Director of Student Information Systems
